Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Sunday 07 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry days and chilly nights, but turning unsettled midweek.

Today:
A cold start with a risk of frost, but largely fine and dry throughout the day. Often cloudy, although there should be some bright spells at times. Maximum temperature 9 deg C (48 deg F).

Tonight:
A chance of light rain breaking out in the north later, but elsewhere remaining dry with a mixture of cloud and clear spells. Patchy frost. Minimum temperature 2 deg C (36 deg F).

Monday:
A mostly cloudy day across the region. Rain in the north at times, but staying largely dry further south. Maximum temperature 10 deg C (50 deg F).

Outlook for Tuesday to Thursday:
Patchy light rain on Tuesday. Overnight Tuesday into Wednesday will see heavy rain and strong winds with gales developing, perhaps severe later. Blustery heavy showers on Thursday with possible hail.
